

A.J. Scaffolding

31.1.17

TMN Contractors were as appointed principle contract and worked in partnership with Royal Greenwich, the works involved consists of extensive external repairs to 13 blocks on the Milne estate at Woolwich. After the appointment TMN issued an intensive programme with tight deadlines. TMN appointed A.J Scaffolding to undertake the process of erecting the scaffold, the works started on the 4th January 2016 and right from the word go it was a success, A.J Scaffolding had teams on site to deal with the planned works and meet every deadline set, they were very professional and solved any issue without fuss or delay. I would highly recommend this company to any contractor, and I will not hesitate in using them again.
